

GETTING STARTED INSTRUCTIONS

The GARD Series Software implementation package includes:

- The Software Install CD (707012 ComboGard Pro or 707013 AuditGard)
- 42145 Programming/Audit cable (3125 Entry Device)
- 43097 Programming/Audit cable (for 3190, 3750-K, and 8130 Entry Devices)
- 707010 USB Interface Adapter (or 42150 Serial Interface Adapter)

IMPORTANT NOTE: The system driver for the USB Interface Adapter will be installed after the application software. **DO NOT** insert the adapter into the PC until the software installation is complete.

If any of the above items are missing, contact your point of sale.

System Requirements

Minimum hardware and software requirements for Gard Series software:

- IBM compatible PC (Intel® Pentium® 4 or compatible processor) capable of running Windows® with an available USB or serial port
- 512 MB RAM (1GB preferred. Also refer to your operating system requirements.)
- CD-ROM or DVD-ROM Drive
- Hard Disk Drive with at least 6.5 MB available
- Super VGA (1,024x768) or higher-resolution video adapter and monitor
- Windows XP Professional 32-bit (Service Pack 3 or greater), Windows Vista 32-bit or 64-bit (Business Edition), and Windows 7 Professional 32-bit or 64-bit
- Microsoft Mouse or compatible pointing device

NOTE: Adobe® Reader requires an additional 335 MB of available hard-disk space and Microsoft Internet Explorer 6.0 or higher.

Product Documentation

All instructions for the LA GARD software programs are available on the Install CD in PDF format and can be accessed from the Product Documentation menu item. Adobe® Reader is required to view and print the documents; it is included on the Install CD.

NOTE: The latest versions of LA GARD documentation are also available for download at www.kaba-mas.com.

Before installing the Software, print and carefully review the Software Installation Instructions.

Print Software Installation Instructions

1. Insert the LA GARD Install CD into the appropriate CD-ROM or DVD-ROM drive of the PC.
2. The Install CD is set to AutoRun. If AutoRun does not initiate, complete the following steps:
 - a. Select the **Start** icon in the lower left of the Windows screen.
 - b. Select the **Run** icon from the Windows menu. The Run Window will be displayed (Figure 1).
 - c. If necessary, change the path to point to the drive being used to install the software.
 - d. Click on the **OK** button.

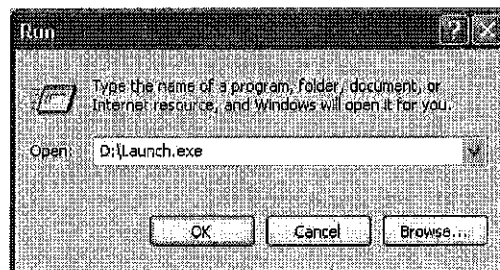

Figure 1.

NOTE: An alternate method to initiate the Installation Browser is to right-click on the **START** button, select **Explore** to open your CD-ROM drive, and then select **Launch.exe**.

The main menu of the Installation Browser will display three Menu Options: **Install Software**, **Product Documentation**, and **Contact Us**.

3. Select the **Product Documentation** menu item.
4. If Adobe® Reader 9.0 or above is not installed on the computer, select the **Install Adobe Reader** menu item to install the Adobe Reader software.
5. From the **Product Documentation** menu, select **Install Guides**.
6. From the **Install Guides** menu, select **Software Installation Guide** to open the Software Installation Instructions.
7. From the **File Menu**, select **Print**.
8. Click on the **Back** button to return to the Product Documentation Menu.
9. Click on the **Menu** button to return to the Main Menu.

At this time **Exit** the Installation Browser or continue with the Software Installation, following the Software Installation Instructions.
